John Aherne, School Superintendent
Abington Public Schools
1 Ralph Hamlin Lane
Abington, MA 02351

Dear Superintendent Aherne:

Financial Advisory Associates is pleased to provide the enclosed final update to our previous Abington Public School District demographic and enrollment study.

We have provided a standard 10-year estimate and analysis prepared along the lines of those previously required under the former SBA program. In addition, we have updated our short-term estimates and analysis. We have included in this report an estimate prepared using the one-year survival rate that the District experienced between FY 2005 and FY 2006.

Since this is an update, we have not done an extensive analysis. Our preliminary findings are as follows:

- Births have trended closely to previous estimates with a minor upward trend.
- Survival Ratios have trended very close to estimates and continue to indicate diminished future enrollments.
- Our unadjusted enrollment estimates indicate the following future enrollment ranges:

Enrollment Ranges

	2006	2011	2015
Elementary - Local	1,306	1,270	1,300
Elementary - State	1,302	1,210	1,227
JHS – Local	404	372	377
JHS - State	404	372	357
HS - Local	596	622	555
HS - State	596	622	552
Total – Local	2,305	2,265	2,232
Total - State	2,301	2,205	2,136

Unlike our detailed study previously performed, we have not looked at new housing issues or other school system enrollments.

The results of our work show very similar ranges of enrollment estimates. In our prior work we have used the local birth data driven models for our final estimates. The variances between the two calculations are not varied. The variance between the two estimates in 2015 is about 4.5 percent.

Please feel free to contact us should you have any questions on these updates.

Thank you for this opportunity to be of service to you, the School Committee and the Town of Abington.

Yours sincerely,

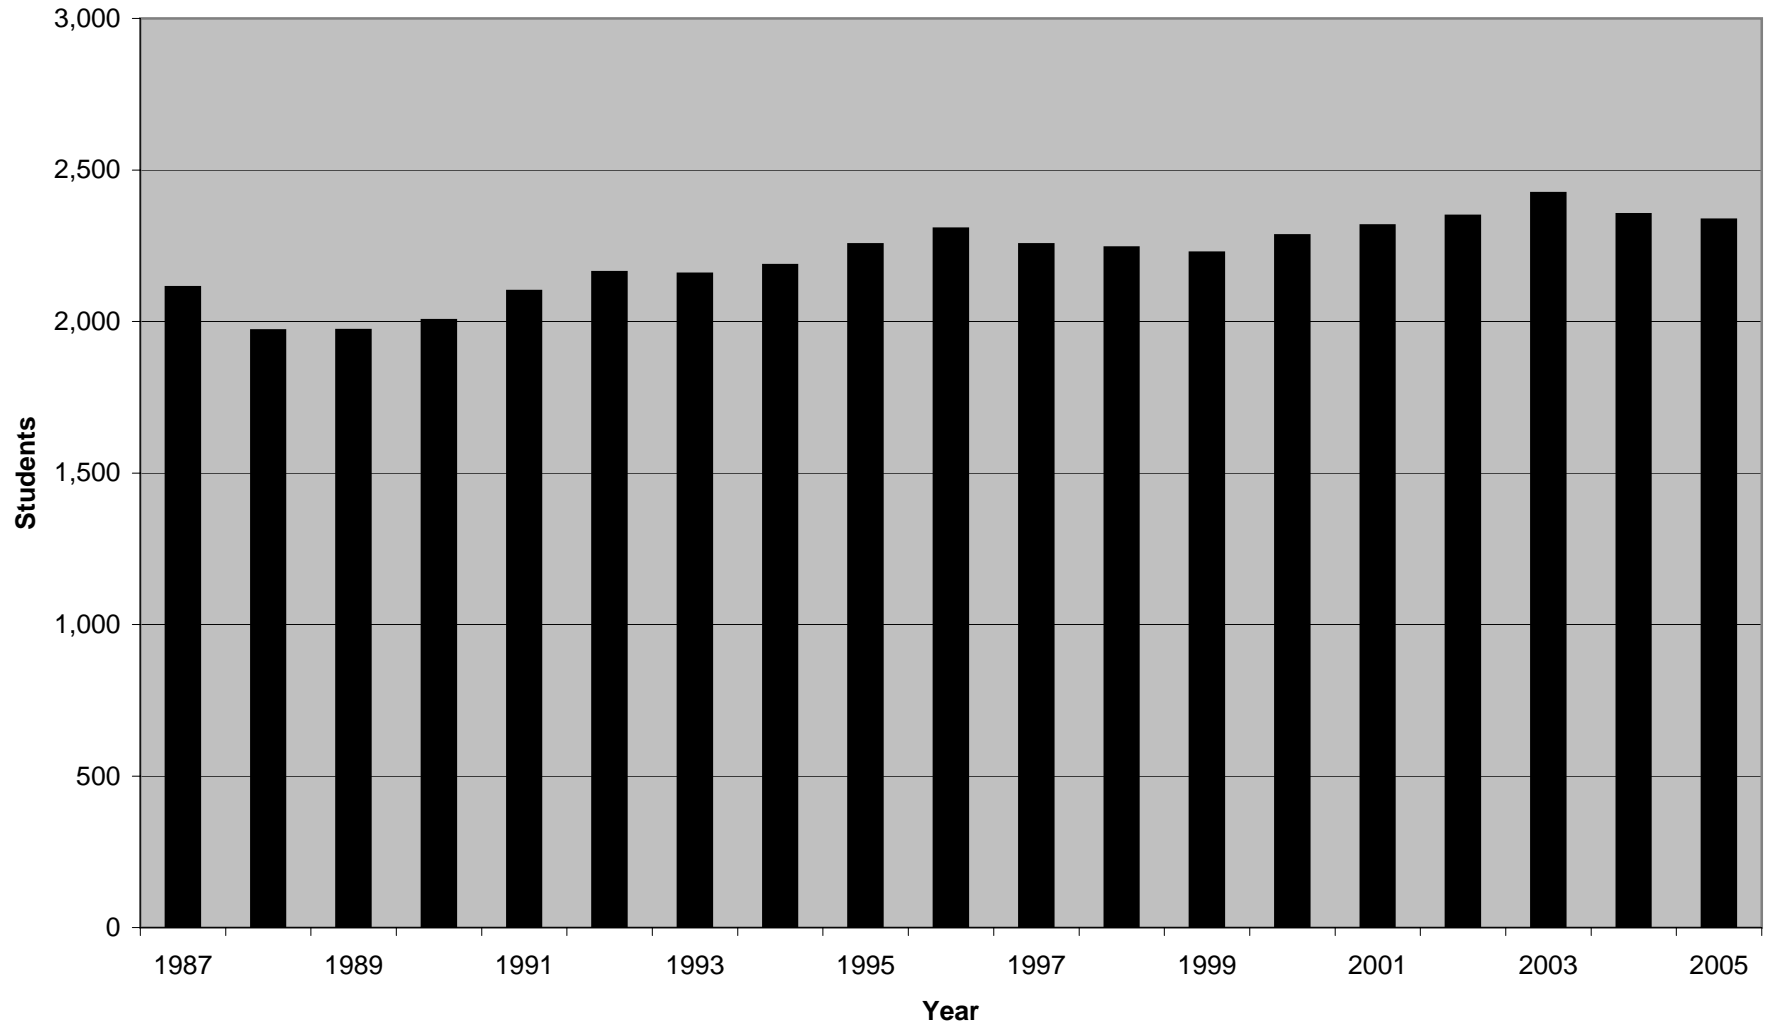

FINANCIAL ADVISORY ASSOCIATES, INC.

Michael Daley
President

The projected births for 2004 through 2010 are estimated using a weighted average.

The weighting is as follows:

30% of the 03 year ave =	59
30% of the 07 year ave =	56
30% of the 10 year ave =	57
10% of the 15 year ave =	19
	192 Rounded Number

2007	200	Estimated
2008	200	Estimated
2009	200	Estimated
2010	200	Estimated
2011	200	Estimated

The projected births for 2006 through 2011 are estimated using a weighted average.

The weighting is as follows:

30% of the 03 year ave =	60
30% of the 07 year ave =	58
30% of the 10 year ave =	61
10% of the 15 year ave =	21
	200 Rounded Number
